

## New Website Supports New England Food Entrepreneurs

The New England Extension Food Safety Consortium has announced the completion of a new website designed to meet the information and resource needs of the region's specialty foods industry. Topics include:

- Starting a Food Business
- Business and Marketing
- State Specific Information for the Six New England States
- Food Regulations
- Product Development
- Training and Education
- Resources

UNH Cooperative Extension and UMASS Extension were Co-Directors in the project along with the other New England states. Funding was provided by the New England Extension Consortium.

The site is called “**Online Support for New England Food Entrepreneurs**” at the address:

<http://www.umass.edu/nefe/>
